BUDGET MESSAGE 2009

Gloucester County Utilities Authority

AUTHORITY BUDGET

FISCAL YEAR: FROM NOVEMBER 1, 2009 TO OCTOBER 31, 2010

The proposed budget of the Gloucester County Utilities Authority represents a proposed five (5%) percent increase in sewer service charges. This is one and a half (1 ½%) percent less than last year. The increase is necessary for the following reasons:

- Mandated costs and increases associated with salary and wages
- Cost increase for the systems and preventative maintenance and chemicals
- An increase in debt service costs

The Customer Service Charge to the Authority's municipal and private customers will rise from \$2,260 per million gallons to \$2,373 per million gallons. The average ratepayer will see an annual increase of \$11.30.

As in previous years, the Authority will be utilizing monies collected in the past from Construction Expansion Fees to pay a portion of its Debt Service. The Authority will also be utilizing monies accumulated in the Bond Service Fund to offset the total debt service.

The Authority's budget continues its tradition of providing safe, environmentally friendly services at the lowest possible cost to its ratepayers and municipal customers.

The proposed capital projects will not be affected by the economy because they are rehabilitative in nature and must be done for upkeep of the system.

2009 Capital Budget/Program Message

Gloucester County Utilities Authority

FISCAL YEAR: FROM NOVEMBER 1, 2009 TO OCTOBER 31, 2010

The proposed capital budget of the Authority consists of various projects which are rehabilitative in nature; including plant electrical upgrades of the sub-stations and an upgrade to the Shopper Lane Pump Station by increasing wet well capacity and rehabilitating portions of the force main.

In 2009, The Authority received approval of their updated Wastewater Management Plan which included build out analysis for the consolidated district. In addition the Authority obtained permit to re-rate the existing wastewater treatment plant capacity from 24.1 MGD to 27 MGD. Various capital improvement projects are included in the five year capital improvement plan to address the upgrades or requirements associated with the plant re-rate and planning for future build out needs.

Funding for these capital improvement projects will be through the NJEIT (New Jersey Infrastructure Trust) debt authorization and the proposed capital improvements are not contingent upon economic conditions (new connections), but rather are rehabilitative in nature as required to maintain the system. All replacement infrastructure does include an evaluation which considers future capacity. This evaluation is prudent to maximize equipment of infrastructure life expectancy.
